

EMERGENCY & DISASTER PREPAREDNESS PLAN

East Alabama Apothecary has a comprehensive emergency preparedness plan in case a disaster occurs. Disasters may include fire to our facility, chemical spills in the community, hurricanes, snow storms, tornadoes and community evacuations. Our primary goal is to continue to service your prescription care needs. When there is a threat of disaster or inclement of weather in the local area East Alabama Apothecary will contact you prior to any atrocities the city may encounter, however if there will be a threat of disaster or inclement of weather in an area you reside which is outside of the tri-state area it is your responsibility to contact the pharmacy prior to the occurrence (if permissible). This process will ensure you have enough medication to sustain you.

East Alabama Apothecary will utilize every resource available to continue to service you. However, there may be circumstances where East Alabama Apothecary cannot meet your needs due to the scope of the disaster. In that case, you must utilize the resources of your local rescue or medical facility. Please read the guide below to aide you in the case of an emergency or disaster:

1. If you are unable to receive your medication during an inclement weather emergency occurrence, you may pick up your medication at East Alabama Apothecary at EAMC's campus or our pharmacy can transfer your medication to a local pharmacy so you do not go without medication.
2. If a local disaster occurs and the pharmacy cannot reach you or you cannot reach the pharmacy, please listen to your local news and rescue centers for advice on obtaining medication. Visit your local hospital immediately if you will miss a dose.
3. The pharmacy recommends all patients leave a secondary emergency number.

If you have an emergency that is not environmental but personal and you need your medication, please contact the pharmacy at your convenience and we will aide you.
